### **EXAMINER'S AMENDMENT**

The application has been amended as follows:

#### **IN THE CLAIMS:**

Claims 14-18: change the status modifier from "Withdrawn" to "Original".

#### ***Election/Restrictions***

Linking claim 13 is in condition for allowance. Thus, restriction requirement made in the previous Office Action mailed 5/17/2005 is withdrawn and claims 14-18 are rejoined.

#### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The closest prior art of record to Owen (5,073,249) does not disclose nor suggest present claimed method of recovering fines from FCC processing of light feeds comprising steps (a) of "supplying quench oil to a quench oil inventory to maintain the inventory in steady state" and (f) slurring the recovered fines. With respect to the claims directed to a system for recovering fines from FCC processing of light feeds, no prior art could be found to disclose or suggest the claimed filtration loop for circulating quench oil from the liquid holdup zone through a filtration-mode filter and returning filtrate to the liquid holdup zone and a backwashing loop for passing a compressed gas through a backwash-mode filter and introducing fines therefrom to a slurry collection zone.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
